LATER FROM EUROPE.

## ARRIVAL OF THE ATLANTIC.

New York, Oct. 16.  
The steamship Atlantic was announced at Sandy Hook at 6 o'clock this morning, and reached the dock at half past 8 o'clock.

She brings intelligence that the Russian fleet was defeated near Eupatoria, by the French cavalry, with a loss of 6 men killed and 27 wounded.

Prince Gortschakoff reports, on the 2d of October, that an ineffectual movement had been made on his left flank.

The allied fleet sailed on a secret expedition, supposed to be directed against Nicolaeff and Odessa.

The Emperor is at Odessa; he has issued an encouraging address to the Russian people and will shortly be in the Crimea.

A collision was anticipated between the western powers and the King of Greece, on account of the Russian propensities of the latter.

The food question is still a matter of serious import, both in France and Germany.

The southern portion of Sebastopol is to be blown up by the Allies, and mines are now being sunk for that purpose.

Prince Gortschakoff's army was threatened by a large force of the Allies from Eupatoria.

The Atlantic brings intelligence up to Saturday, the 6th inst. She has two hundred and seventeen passengers.

The steamship Ericsson arrived at Coves on Friday, the 5th inst.

MANCHESTER.—The market is quiet and very little doing. Brown & Shipley report that the quality of new wheat is not promising—old is in active demand at full prices.

Flour is in better request. Nothing doing in Bacon. Tallow is active.

BREADSTUFFS.—Brown & Shipley quote white wheat at 12s a 12s 6d, red wheat 11s 9d a 12s.

FLOUR.—Western Canal quoted at 40s and 41s; Southern 42s a 43s; Ohio 43s and 44s.

CORN.—The quotations of white 44s and 45s; Yellow 40s a 41s.

The steamship Africa, from Boston via Halifax, signaled below.

The Mission Aeronaut.

It makes one shudder to think of the probable fate of Mr. Winchester, who went up in a balloon from Norwalk, Huron county, on the 2d inst. Over two weeks have elapsed, and no tidings have as yet reached his family at Milan, of his fate.

Whether frozen to death in upper air, and thus dashed to earth, or buried in the deep bosom of the Lake, no word has come to tell. While we wonder at his temerity, we must pity his probably and fatal fate.

Yet there is hope still, as the last seen of him his airy vessel was wafted toward the North, sufficiently inflated, as we are told by the Norwalk papers, for a voyage of from two to three days. May be landed in Canada, so far from railroads and telegraphs as to prevent tidings yet reaching his home. It is but a hope, however. The Norwalk Reflector says:

It was reported some days since, that he had been heard from somewhere in Canada, but the report could be traced to no reliable source, and proved to be unfounded.

It is pretty generally believed here that he is lost—as to the precise manner, if so, there are various opinions. Many suppose that he may have ascended so high, that he became insensible and perished from cold. His fate, whatever it may be, is a matter of speculation. We conversed with a gentleman from Milan, a few days since, who told us that Mr. W. had, for some time past, manifested a strong desire for ballooning, and that he had expressed his intention of ascending higher, and to make a longer aerial voyage than any other aeronaut had ever accomplished.

We are told he took only twenty-five lbs. of ballast with him, which was about half as much as he took when he made his ascension from Milan a short time previous.

The Norwalk Experiment expresses a hope that the press correspondents, and especially east of us, will speak of the ascension, and if it should be that he has landed safely, information may be sent to his family in Milan.

Fusion Philanthropy.

Col. Tod, in a recent speech, related the following incident, illustrative of Fusion philanthropy:

"On the 4th of July last, perhaps the largest Mass Meeting that ever assembled in Ohio since the days of 1840, was held at the County Fair Grounds in Ravenna, Portage county. It was an Abolition meeting; Chase, Giddings and Wade were present. To that meeting came a poor negro, bearing from good citizens of Belmont county a letter, stating in substance that he was a worthy colored man soliciting aid to redeem his wife and children from slavery. They were owned by a widow lady in Kentucky, by the name of Lewis, who was poor and unable to emancipate them herself; yet she was willing to take as low as \$600 from them from the husband and father. The letter stated that whatever funds might be contributed would be forwarded to the Secretary of the Anti-Slavery Society, and by him to Mrs. Lewis, who would thereupon release those slaves. Mr. Wade read the letter to the meeting, and stated that a box was at the gate in which contributions could be dropped. And what do you think, fellow-citizens, (said Mr. Tod,) was the amount contributed by this Abolition multitude of thousands towards redeeming that poor man's wife and children from slavery? Why, the enormous sum of EIGHTY CENTS! Don't you think that a Democratic audience, with the same facts before them, would have had them out of slavery in no time? The truth was, it took Abolitionists to preach philanthropy, but it took Democrats to practice it!"

A POLITICAL BABEL.—There are thirty-six distinct parties in New York, with all sorts of strange and whimsical names, adopted apparently more out of ridicule than as characteristic of political principles. It must be difficult, amid such a confusion of parties, for any individual to know exactly which he belongs to or on what platform he stands.
